

 **WARNING**

- \* *ATC riding requires special efforts on your part to ensure your safety. Know these requirements before you ride.*

## SAFE RIDING RULES

- \* Always make a pre-ride inspection (page 21) before you ride the ATC. You may prevent an accident or equipment damage.
- \* Always obey local off-road riding laws and regulations.
- \* Obtain permission to ride on private property. Avoid posted areas and obey “no trespassing” signs.
- \* Know the terrain on which you are riding. If you are not familiar with the terrain, ride cautiously. Hidden rocks, holes or ravines could spell disaster.
- \* Your ability to operate safely is largely dependent upon your proper judgement in operating the machine.
- \* Alcohol, drugs and ATC’s don’t mix. Even the smallest amount of alcohol can impair your ability to operate your ATC safely.  
Likewise, drugs, even if prescribed by a physician, can be dangerous while operating an ATC.  
Consult your doctor to be sure it is safe to operate a motor vehicle after taking medication.

## PROTECTIVE APPAREL

- \* Always wear a helmet. You should also wear a face shield or goggles, boots, gloves and protective clothing.
- \* The exhaust system becomes very hot during operation and it remains hot after operation. Never touch any part of the hot exhaust system. Wear clothing that fully covers your legs.

## MODIFICATIONS

- \* Modification of the ATC, or removal of original equipment may render the vehicle unsafe or illegal.
- \* Spark arresters and mufflers are required in most areas. Don’t modify your exhaust system. Remember that excessive noise bothers everyone and creates a bad image for off-road vehicles.
