

Fuel Gauge

The fuel gauge (1) shows the approximate fuel supply available. At F (full) there is:

21 liters (5.6 U.S. gal., 4.6 Imp. gal.), including the reserve supply. When the gauge needle first points to RES there is about 6 liters (1.5 U.S. gal., 1.3 Imp. gal.) left in the tank. Refill the tank as soon as possible.
