

4. Check the chain slider (2), chain guide slider (3), chain roller (4) and lower slider (5) for wear.

If the chain slider and lower slider are worn to the bottom of the cutouts (6), have your Honda dealer replace the slider. Replace the chain guide slider if the chain is visible through the wear inspection window (7).

Replace the chain roller if it is smaller than:  
18 mm (0.7 in)
