

Tyre Replacement

The tyres that came on your CRF were designed to provide a good combination of handling, braking, durability, and comfort across a broad range of riding conditions.

WARNING

Installing improper tyres on your motorcycle can affect handling and stability. This can cause a crash in which you can be seriously hurt or killed.

Always use the size and type of tyres recommended in this owner's manual.

ED type:

Front	80/100-21 M/C 51M MST	
	PIRELLI	SCORPION MX MIDSOF 32
Rear	110/90-19 62M NHS	
	PIRELLI	SCORPION MX MIDSOF 32
Type	bias-ply, tube	

U type:

Front	80/100-21 51M	
	DUNLOP	D742FA
Rear	120/80-19 63M	
	DUNLOP	D756
Type	bias-ply, tube	

- Use a replacement tyre equivalent to the original.
- Replace the tube any time you replace a tyre. The old tube will probably be stretched and, if installed in a new tyre, could fail.
