

OPERATION

PARKING

1. After stopping the motorcycle, shift the transmission into neutral, turn the ignition switch OFF and remove the key.
2. Use the side or center stand to support the motorcycle while parked.

Park the motorcycle on firm, level ground to prevent it from falling over.

3. Lock the steering to help prevent theft (page 60).

Make sure flammable materials such as dry grass or leaves do not come in contact with the exhaust system when parking your motorcycle.
