

Switches *(Continued)*

(NC700SD)

Parking brake lever and Release button

Be sure the parking brake is applied while parking and warming up the engine.

- ▶ Make sure the parking brake lever is released before riding.

To apply the parking brake lock

Pull the parking brake lever back to lock the rear wheel.

- ▶ Be sure the release button pops out and parking brake lever is not released.
- ▶ The parking brake lock will not function if the parking brake is not adjusted properly. **➡ P. 80**

To release the parking brake lock

Release the parking brake lever by lightly pulling in the lever (①) and pressing the release button (②).

- ▶ Before riding, check that the parking brake indicator is turned off and make sure that the parking brake is fully released so there is no drag on the rear wheel.
