

Unlock the Ignition Switch For an Emergency

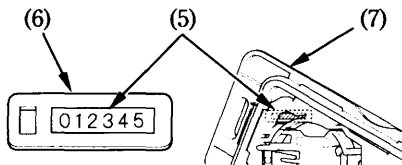

Set up:

1. Use the mechanical key to open the front seat (page 93) and remove the mat.
2. Remove the battery cover (page 162).
3. Pull out the yellow connector (1) and release the tab while lifting the hook (2). Remove the yellow dummy connector (3).
4. Connect the EM connector (4) in the tool kit to the connector.
5. Check the ID number (5) which is on the ID tag (6) or the inside of the Honda smart card key (7).

To check the ID number which is inside of the card key, see page 74 .
