

HELMET HOLDER

The helmet holder eliminates the need for carrying your helmet after parking.

Open the front seat (page 101).

Route the helmet wire (1) through the helmet D-ring (2) and hook the loop of the helmet wire onto the helmet holder (3).

Close the front seat and lock it securely.

⚠ WARNING

Riding with a helmet attached to the holder can interfere with the rear wheel or suspension and could cause a crash in which you can be seriously hurt or killed.

Use the helmet holder only while parked. Do not ride with a helmet secured by the holder.
