

## **▲ WARNING**

### **POTENTIAL HAZARD**

**Climbing hills improperly.**

### **WHAT CAN HAPPEN**

**Could cause loss of control or cause the ATV to overturn.**

### **HOW TO AVOID THE HAZARD**

**Always follow proper procedures for climbing hills as described in this Owner's Manual.**

**Always check the terrain carefully before you start up any hill.**

**Never climb hills with excessively slippery or loose surfaces.**

**Shift your weight forward.**

**Never open the throttle suddenly or make sudden gear changes. The ATV could flip over backward.**

**Never go over the top of any hill at high speed. An obstacle, a sharp drop, or another vehicle or person could be on the other side of the hill.**

If you incorrectly estimate climbing capability or terrain conditions, the Sportrax may not have enough power or traction to continue uphill.

If you are about to lose all forward speed:

1. Using the front and rear brakes together, bring the Sportrax to a stop with the vehicle pointed straight uphill.
