

### **Lubrication and Cleaning**

Lubricate every 30 days of riding or sooner if chain appears dry. The O-rings in this chain can be damaged by steam cleaning, high pressure washers, and certain solvents.

Clean the side surfaces of the chain with a dry cloth. Do not brush the rubber O-rings. Brushing will damage them. Wipe dry and lubricate only with Honda Chain Lube or an equivalent drive chain lubricant which specifies use for O-ring chains. Other commercial chain lubricants may contain solvents which could damage the rubber O-rings.

Replacement chain:

DID520V6 or RK520 SMOZ10S
