

When the Honda SMART Key System Does Not Operate Properly

When the Honda SMART Key system does not work properly, perform the following.

- Check that the Honda SMART Key system is activated.

Lightly push the ON/OFF button on the Honda SMART Key.

If the Honda SMART Key LED is red, activate the Honda SMART Key system.

➡ P. 30

If the Honda SMART Key LED does not respond, replace the battery.

- Check that there is no communication failure in the Honda SMART Key system. The Honda SMART Key system uses low-intensity radio waves. The Honda SMART Key system may not work properly in the following conditions:
 - ▲ When there are facilities nearby that generate strong radio waves or noise such as TV towers, power stations, radio stations, or airports.
 - ▲ When you carry the Honda SMART Key with a laptop or wireless communication device such as a radio or mobile phone.
 - ▲ When the Honda SMART Key comes into contact with or is covered by metal objects.
