

The battery is located in the battery box below the front seat.

Removal

1. Make sure the ignition switch is OFF.
2. Remove the rear seat and front seat (pages 94 , 95).
3. Release the ring (1) and remove the rubber band (2).
4. Disconnect the negative (-) terminal lead (3) from the battery first, then disconnect the positive (+) terminal lead (4).
5. Pull the battery (5) out of the battery box.
