

## Periodic Checks

You should also perform other periodic maintenance checks at least once a month regardless of how often you ride, or more often if you ride frequently.

Also, check the odometer reading against the Maintenance Schedule and perform all maintenance that is due. **2 P. 117**

Tires and wheels	Check the air pressure ( <b>2 P. 133</b> ), examine tread for wear and damage ( <b>2 P. 133</b> ), and check the wheels for damage.
Fluid levels	Check the engine oil level ( <b>2 P. 143</b> ), engine coolant level ( <b>2 P. 147</b> ), and brake fluid level ( <b>2 P. 149</b> ).
Lights	Check that the headlight, position light, brake light, taillight, turn signals and license plate light are working properly.
Controls	Check the freeplay of the clutch lever ( <b>2 P. 157</b> ) and throttle grip ( <b>2 P. 161</b> ).
Drive chain	Check the slack ( <b>2 P. 153</b> ), adjust the slack ( <b>2 P. 154</b> ), and lubricate ( <b>2 P. 131</b> ) as needed.
Fuses	Check that you have a full supply of spare fuses.
Nuts & bolts	Check the major nuts and bolts, and tighten as needed.
