

Periodic Checks

You should also perform other periodic maintenance checks at least once a month regardless of how often you ride, or more often if you ride frequently.

Also, check the odometer reading against the Maintenance Schedule and perform all maintenance that is due. ➤ P. 34

| | |
|------------------|---|
| Tires and wheels | Check the air pressure (➤ P. 48), examine tread for wear and damage (➤ P. 48), and check the wheels for damage. |
| Fluid levels | Check the engine oil level (➤ P. 63), engine coolant level (➤ P. 68), and brake fluid level (➤ P. 70). |
| Lights | Check that the headlight, brake light, taillight, turn signals and license plate light are working properly. |
| Controls | Check the freeplay of the clutch lever (➤ P. 78), and throttle grip (➤ P. 81). |
| Drive chain | Check the slack (➤ P. 74), adjust the slack (➤ P. 75), and lubricate (➤ P. 46) as needed. |
| Fuses | Check that you have a full supply of spare fuses. |
| Nuts & bolts | Check the major nuts and bolts, and tighten as needed. |
