

2. Check the security of all handlebar and fork mounting bolts (1). If any front suspension components appear worn or damaged, see your dealer for further inspection.

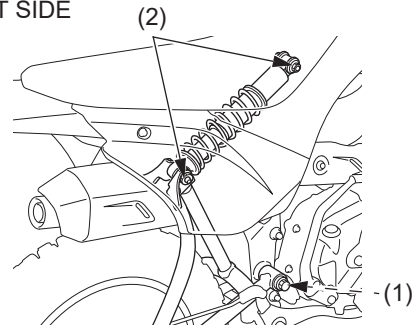

## Rear Suspension Inspection

LEFT SIDE

- (1) swingarm bushing
- (2) shock absorber attachment points

RIGHT SIDE

- (1) swingarm bushing
- (2) shock absorber attachment points

1. Place the motorcycle on a maintenance stand. Push hard against the side of the rear wheel and feel for any freeplay which indicates worn swingarm bushings (1).
