

Off-road safety

Before venturing out on unfamiliar terrain, learn to ride on a clear, obstacle-free off-road terrain.

- Obey all local laws and regulations pertaining to off-road riding at all times.
- Obtain permission to ride on private property. Do not ride in private areas and obey "Do not enter" signs.
- Ride with a fellow motorcycle rider so that you can help each other if necessary.
- It is very important to be familiar with the motorcycle in case a mishap occurs far from help.
- Never ride beyond your personal ability and experience, or faster than conditions warrant.
- Ride carefully if you are unfamiliar with the terrain. Hidden rocks, pits and ditches can cause serious accidents.
- Almost all off-road areas require the use of a silencer. Do not modify your exhaust system. Remember that excessive noise bothers everyone and creates a poor image of motorcycling.
