

## Load Limits & Guidelines

---

### Load Limits

Following are the load limits for your motorcycle:

**maximum weight capacity:**

322 lb (146 kg)

includes the weight of the rider, passenger, all cargo, and all accessories.

**maximum cargo weight:**

7 lb (3 kg)

The weight of added accessories will reduce the maximum cargo weight you can carry.

### Loading Guidelines

Your motorcycle is primarily intended for transporting you and a passenger. You may wish to secure a jacket or other small items to the seat when you are not riding with a passenger.

If you wish to carry more cargo, check with your dealer for advice, and be sure to read the information regarding accessories on page 5 .

Improperly loading your motorcycle can affect its stability and handling. Even if your motorcycle is properly loaded, you should ride at reduced speeds and never exceed 80 mph (130 km/h) when carrying cargo.
