

### Periodic Checks

You should also perform other periodic maintenance checks at least once a month regardless of how often you ride, or more often if you ride frequently.

Also, check the odometer reading against the Maintenance Schedule and perform all maintenance that is due. ➔P.31

Tires and wheels	Check the air pressure (➔P.44), examine tread for wear and damage (➔P.44), and check the wheels for damage.
Fluid levels	Check the engine oil level (➔P.52), and brake fluid level (➔P.62).
Lights	Check that the headlight, brakelight, taillight and turn signals are working properly.
Controls	Check the freeplay of the clutch lever (➔P.71), throttle grip (➔P.74).
Drive chain	Check the slack (➔P.65), adjust the slack (➔P.66), and lubricate (➔P.43) as needed.
Fuses	Check that you have a full supply of spare fuses.
Nuts & bolts	Check the major nuts and bolts, and tighten as needed.
